

STOP!

Use Safe Chemical Practices at Pools and Spas

- DO read the product label
- DO maintain good housekeeping practices
- DO store chemicals in a cool, dry, well-ventilated place
- DO wear appropriate personal protective equipment as listed on label
- DO use up all product before disposal of container
- DO notify supervisor in case of an emergency situation
- DO keep spilled materials isolated, follow label directions for clean-up and disposal
- DO keep chemical product containers covered and protected from contamination
- DO add each pool and spa chemical separately
- DO have an emergency plan and conduct regular drills

LOCAL EMERGENCY NUMBER: _____

*For disposal information, contact your local solid waste, health, or environmental agency.
